

London Home Builders' Association Awards of Creative Excellence

About the Awards

Over 350 LHBA members and guests filled the Crystal Ballroom at the Lamplighter Inn on October ninth to celebrate excellence in design, marketing, and personal achievements in the residential construction industry in London.

Guests were transported to a Parisian Café by the Eiffel Tower and offered an impeccable French inspired dining experience complete with artists to draw their portraits!

The Awards of Creative Excellence celebrate the most creative and professional work in the London home building industry. ACE was created by the London Home Builders' Association to recognize achievement in design and marketing by members of the Association.

Over the years, ACE has evolved into more than just design and marketing and now honours members for personal commitments to the Association and the housing industry. Companies are also recognized for their commitment to clients and homeowners in Supplier and Sub-trade of the Year, Builder and Renovator of the Year categories.

Each year, ACE strives to recognize the best
